

This series aims to contribute toward design projects with a distinctly contemporary, avant-garde air offering broad-ranging possibilities, and combination of formats (60x60, 45x90, 30x59 and 45x45). With a choice of 12 different colours, the collection's variety of décors further enhances its high interior design potential. This range is suitable for indoors, outdoors and on façades – since these coloured-body porcelain tiles come with either a smooth surface or non-slip C1, C3 or R10 in the case of some finishes.
